

GOLDBERG BROTHERS

BARN DOOR HARDWARE

MP/CP SERIES BYPASS ADAPTER KIT

You can't pass up these bypass door options!

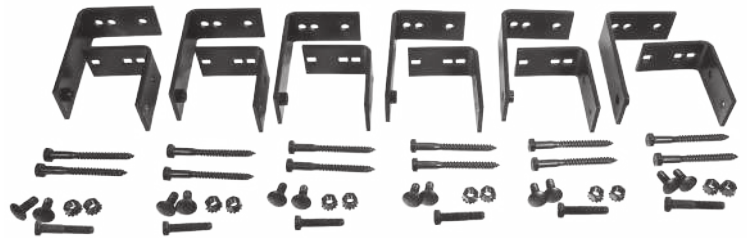

Bypass barn doors are ideal for closets or entryways with adjacent wall space too narrow for single, full-width doors. Combine two MP or CP Series hardware sets and tracks with our bypass adapter kit to open new possibilities!

- Use for either a clear-opening* or pass-through configuration
- Works with all MP/CP Series roller hanger styles
- Two sizes for either 1 $\frac{3}{8}$ " or 1 $\frac{3}{4}$ " thick doors
- Available in Black, Matte Black, Silver, Arch Bronze, and Bronze Texture
- Both tracks mount at the same height for a clean look
- Requires two MP/CP Series hardware sets and two tracks (sold separately)
- Two kits can be used for 4-door biparting bypass installation

Bypass adapter kit for MP/CP tracks up to 8' includes:

- 6 adjustable bracket sets
 - 12 lock nuts
 - 12 hex lag bolts (2 $\frac{1}{2}$ ")
 - 4 hex head bolts (1 $\frac{1}{2}$ ")
 - 12 carriage bolts (3/4")
 - 2 hex head bolts (1 $\frac{3}{4}$ ")
- (Two tracks and and two MP or CP hardware sets sold separately.)

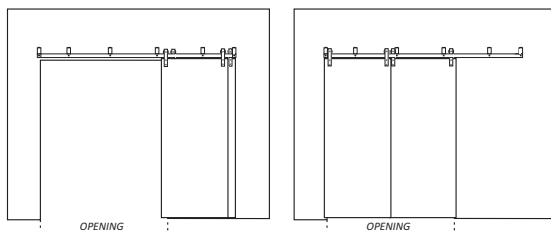

Single-set add-on kit for MP/CP tracks 8'6" or longer includes:

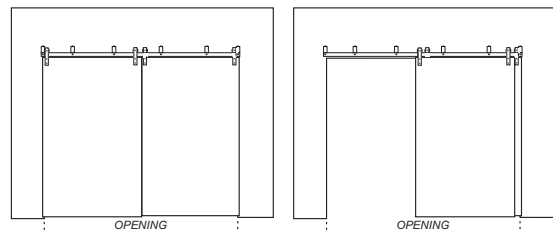

- 1 adjustable bracket set
- 2 lock nuts
- 2 hex lag bolts (2 $\frac{1}{2}$ ")
- 1 hex head bolt (1 $\frac{1}{2}$ ")
- 2 carriage bolts (3/4")
- 1 spacer

(Bypass adapter kit sold separately. One single-set add-on kit required for each additional hole in long tracks with more than six mounting holes.)

CLEAR OPENING*

PASS THROUGH

*Clear-opening configuration requires bypass J-guide and bypass grab/push stops, sold separately.
